

Puspa Narayan Mandal

Arlington, TX | (318) 512-6886 | puspanmandal888@gmail.com | github.com/PushpaSaysHi | pushpasayshi.github.io

PROFESSIONAL SUMMARY

Computer Science sophomore with a 3.64 GPA and hands-on experience building real-world Python applications, REST API integrations, and SQLite-backed systems. Proven ability to learn quickly, communicate complex ideas clearly, and deliver complete, deployed projects. Seeking a software engineering internship to apply and expand skills in Python, web development, and data-driven applications.

EDUCATION

Dallas College

2025 – Present

Computer Science Coursework | Arlington, TX

University of Louisiana at Monroe

2024 – 2025

B.S. in Computer Science (Transferred) | GPA: 3.64

Relevant Coursework: Intermediate Programming, Discrete Structures, Calculus I, Data Structures

PROJECTS

PyBank — Banking System | Python, SQLite, SMTP

2025

- Built a full-featured CLI banking app with secure PIN login, multiple account types, and an admin panel
- Designed and implemented a SQLite database to persist user accounts, transactions, and session data
- Integrated SMTP email notifications for account events such as deposits, withdrawals, and alerts

GitHub: github.com/PushpaSaysHi/python-banking-system

PyWeather — Weather App | Python, REST API, CustomTkinter

2025

- Integrated a public weather REST API to fetch real-time current conditions and 5-day forecasts
- Built auto location detection and a favorite city feature with persistent storage
- Designed a modern GUI using CustomTkinter for a polished, user-friendly interface

GitHub: github.com/PushpaSaysHi/weather-app

Portfolio Website | HTML, CSS, JavaScript

2026

- Designed and deployed a personal portfolio site showcasing projects, skills, and contact information
- Built with responsive design and smooth animations; hosted via GitHub Pages

Live: pushpasayshi.github.io

EXPERIENCE

Mathematics Teacher | Jyoti Academy

Sep 2023 – Jun 2024

- Taught algebra, geometry, trigonometry, and pre-calculus to grades 8–10 using structured lesson design
- Broke down complex topics into accessible explanations and provided individualized student support
- Monitored student progress and adjusted instructional strategies to meet individual learning needs

Instructor (Mental Arithmetic) | Manakamana UCMAS

Jan 2021 – Jan 2024

- Delivered remote online classes on mental arithmetic with step-by-step structured instruction
- Reviewed student work, identified errors, and provided targeted feedback to improve accuracy
- Managed student progress across a multi-year remote program with consistent, patient instruction

Admissions Assistant | Jyoti Academy

Mar 2024 – Apr 2024

- Responded to admissions inquiries via phone, email, and in-person; maintained accurate student records
- Coordinated schedules and communicated with students and staff to support admissions events

SKILLS

Languages: Python, Java, JavaScript, HTML, CSS, SQL, C, C++

Technologies: SQLite, REST APIs, CustomTkinter, Git, GitHub, VS Code

Concepts: Object-Oriented Programming, Data Structures, Algorithms, Database Design

Soft Skills: Communication, teaching, remote collaboration, attention to detail, fast learner

LEADERSHIP & ACTIVITIES

Member | Leo Club of Kathmandu Sauharda

Jul 2023 – Jun 2024

- Created and delivered presentations for community programs and student-focused events
- Coordinated talent shows, food distribution drives, and donation collection campaigns
